EXPERIENCE

Full Stack AI Developer Intern : Curious Team Learning Pvt. Ltd. **(June 2025 – July 2026)**
Full Stack, React.js, Node.js, Three.js, Docker, REST APIs, AI Integration *Hybrid – India*

- Engineered **5+** reusable Full Stack components across **3** production applications, reducing feature development time by **30%** while integrating Three.js for interactive 3D interfaces and AI-driven functionalities.
- Containerized and deployed **4+** microservices using Docker on Hetzner Cloud, optimizing deployment pipelines and reducing deployment time by **40%** through Git-based CI/CD workflows.

Software Development Engineer Intern : True Value Infosoft Pvt. Ltd. **(May 2026 – July 2026)**
MERN, PERN, Firebase, Firestore, REST APIs *Onsite – India*

- Created **3+** production-grade client modules using MERN and PERN stacks, serving **500+** business users while improving application reliability by **20%**.
- Implemented Firebase Authentication and Firestore synchronization across **3K+** records, reducing authentication-related support requests by **25%**.

Software Development Engineer Intern : Market Things **(May 2025 – Aug 2025)**
MERN, Socket.IO, JWT, Clerk, REST APIs *Remote – India*

- Developed **8+** full-stack MERN features enabling real-time doctor–patient communication for **1,000+** users through Socket.IO, reducing message latency by **40%**.
- Implemented JWT and Clerk authentication with role-based authorization across **5+** user roles, ensuring secure platform access in production.

PROJECTS

AgroPrice AI | *TypeScript, Node.js, FastAPI, MongoDB, XGBoost, Docker, Gemini API*

- Engineered an agricultural intelligence platform integrating live Agmarknet mandi prices, XGBoost forecasting, weather intelligence, and logistics optimization.
- Architected a FastAPI-based microservices system using Docker and Gemini API, supporting over 50 concurrent users for machine learning inference tasks.

BankLens | *React.js, Firebase, Cloud Functions, Firestore, PDF.js, Tailwind CSS*

- Architected a serverless platform to decrypt, parse, and categorize password-protected bank statements across SBI, HDFC, ICICI, and Axis Bank.
- Implemented Firebase Cloud Functions, SHA-256 deduplication, analytics dashboards, and Excel export for secure financial record management.

RoboLearn : AI-Powered EdTech Platform | *MERN Stack, OpenAI/Gemini API, Tailwind CSS*

- Implemented an AI-driven educational platform providing students with personalized learning paths, automated quiz generation, and real-time doubt resolution.
- Designed interactive dashboards to track student progress, utilizing AI to dynamically curate personalized study materials based on performance.

Chisto : Premium Food Delivery Ecosystem | *MERN, Socket.IO, WebRTC, Stripe, Gemini AI, Leaflet*

- Architected a scalable micro-frontend ecosystem (Customer, Admin, Rider) with real-time Socket.IO map tracking, dynamic OSRM routing, and Gemini AI-powered voice ordering.
- Engineered a "Push Model" Rider Dispatch system featuring live GPS streaming and integrated WebRTC for peer-to-peer live video delivery verification to enhance operational security.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, C++, Python, SQL
Frontend: React.js, Next.js, Three.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT Authentication, Socket.IO
Databases: MongoDB, PostgreSQL, Firebase Firestore
Cloud & DevOps: Docker, Docker Compose, Linux, Hetzner Cloud, Nginx, GitHub Actions, CI/CD
AI, Data & Integrations: NumPy,Pandas,Matplotlib,Seaborn, Gemini AI,Cloudinary,Stripe
Testing & Tools: Git, GitHub, Postman, Firebase, VS Code
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design, Scalability, SDLC

EDUCATION

Rajasthan Technical University (RTU) : Kota *(Aug 2023 – Apr 2027)*
B.Tech – Information Technology, CGPA: 8.72/10 (Till 5th Semester) *Kota, Rajasthan*

ACHIEVEMENTS

- **Hackathons:** Secured **Top 10** among **100+ teams** at the **National-Level Unstoppable Hackathon (LNMIIT Jaipur)** and **Top 15** at **Reckon 7.0** Jodhpur; competed in **50+ hackathons** across India.
- **Competitive Programming & Open Source:** Solved **300+ LeetCode** DSA problems, contributed to **3 open-source projects**, and achieved **2,000+ GitHub contributions**.
- **Development & Research:** Delivered and deployed **10+ live projects** across full-stack and AI technologies; researching **CNNs** for **AI in Digital Textiles: Automating RIP and Correcting Fabric Distortion**.
